Special Programs from the Knox County Health Department

The Knox County Health Department is pleased to announce free programs that teach children in preschool through sixth grades about healthy choices. Trained staff from the Knox County Health Department will be presenting the programs to your class.

These programs are available throughout the 2010-2011 school year. To request a program for your class, please fill out the program request form and send to the address below as soon as possible. All requests will be acknowledged and confirmed.
